Message from the President

Dear Members,

Namaste!

Change is the only constant thing in life. Your Institution will also witness a change in the Torch Bearers and the Managing Committee at the forth coming virtual Annual General Meeting on 30th August, 2020.

My journey as President for the last 6 years of this noble Institution has been very wonderful, gratifying and enriching. With the efforts of my team, we have tried our best to raise the bar of the Institution by holding number of student centric programmes and framing policies beneficial to them. Setting up of RVG Merit Scholarship Fund, RVG Financial Assistance Scholarship Fund, RVG Medical Assistance Fund, Ideation Club, Annual Aagaaz programme, Group Medclaim insurance for students and staff, Personality & Communication Skill Development Course (PCSDC) and Induction programme for new students are few examples of the new initiatives taken by the management in last 6 years. PCSDC course which focuses on the soft and grooming skills of the students is now in a state of formalisation and your Institution shall be approaching the Maharashtra Government to recognise this course soon. Once recognised by the Government, your Institution shall also be eligible to be recognised as an educational institution.

This year we had both sweet and sour memories. While we have been able to reasonably raise good amount of funds and commenced construction of additional 7 floors over Agarwal Oswal Chhatrawas (AOC) to cater the requirement from rising number of CA students but at the same time, for compelling reasons, we also took a very painful decision to discontinue our pilot project at Delhi which was for the students dreaming to serve the nation through Civil services.

Friends! When we look back and introspect as to whether my team was successful in delivering what it was expected to do? I must say that success is a balancing act between urgent and important priorities. If we ignore the urgent ones, it will destroy us today. However, if we ignore the important ones then that would destroy us tomorrow. This guiding factor has been the basic mantra for my team during the last 6 years. While, my team has managed to take care of urgent priorities well in time and at the same time it has been able to take care of all important things which are the need of the future. I am satisfied with the pace with which my team has been able to bring thorough transparency in its functioning and management.

Dr. Kalam, while interacting with people always emphasised that the Earth is the only planet where life is sustainable and therefore we all have to keep this planet habitable. It is the most sacred duty of all human beings to deliver this planet to our next generation in a better state than what we have received. We at RVG draw lots of inspiration from these words of wisdom. Apart from keeping the surrounding neat, clean and green, RVG has been instrumental for spreading awareness for the environmental issues and motivating our students to do their best to save our own planet right from their young age.

Friends! This time we shall be virtually meeting at a time when the entire world and more particularly our own country - Bharat (India) is suffering from number of natural and manmade calamities resulting into severe darkness. Corona Virus, Border Conflicts, Floods, Cyclones, and other natural calamities have made the life of people in our country in past few months miserable. I remember a poem "रात रात भर जब आशा का दीप मचलता रहता है, तम से क्या घबराना सुरज रोज निकलता है!". The legendry poet explains that when a light of hope in the form of a lamp do shine the whole night, should

we be frightened of darkness when the Sun rises and shines every day. In these tough times, there have been number of creative activities in our country. People of our country have contributed in number of ways for the wellbeing of our people. RVG also did its bit by contributing a sum of Rs. 21 Lakhs to P M Cares Fund and also arranged for free food cooked by our own mess staff for 300 stranded citizens for 40 days. This has been made possible only because of active support from all of you. We also have received wholesome support from our area MLA – Shri Ameet Satam in distribution of food to deserving and needy people for which we convey our heartfelt gratitude towards him.

Friends! I would like to dedicate the next few paragraphs on Corona virus and the Indian Government initiatives. Covid 19 is a world-wide pandemic. Over more than last 4 months, the year 2020 has not only witnessed the human race being locked in a battle against a virus but also seen almost all economies of the world fuelling fears of a global recession.

This is an extraordinary state of affairs which this generation is facing. None of the living persons today has the experience on any such pandemic in the recent past. All extra ordinary situations require extraordinary responses from all the stakeholders including the government. Our visionary Prime Minister – Shri Narendra Modi has motivated the people of our country to find number of opportunities in these difficult situations. Your institution RVG has also resolved to use home made products in all of its uses, if available thus making a huge pitch for “vocal for local”.

RVG has always promoted the well-being of its large base of students be it in academics, in their talent, in profession, in health care and otherwise. RVG has taken pro-active steps to secure the life of our students at RVG. It is indeed satisfying to note that none of our students reported having been affected by the virus.

The rapid measures effectively taken by the Government of our country for containing the spread of Covid-19 have been praised all over the globe. Both the United Nations and WHO mentioned that India's response to the pandemic was 'comprehensive and robust, and termed the lockdown restrictions as 'aggressive but vital' for containing the spread and building necessary healthcare infrastructure.

The Government helped and enabled its citizens to be well prepared to face the challenges and threats posed by the virus. One of the most important factors in the fight with the virus was that the Government empowered the citizens with accurate information and enabled them to take precautions as per the advisories issued from time to time. Covid warriors including police and the armed forces have worked round the clock to create awareness and make sure that people at large follow the lockdowns and relaxations from time to time religiously. The medical, cleaning and sanitation staff are working overtime to assure the speedy recovery of the patients that are infected by the virus and the safety of people who are at home. All these Covid warriors are so motivated that they are ready to risk their life without hesitation. The kind of morale our countrymen have displayed during past 4 months is remarkable.

The Indian government also appealed to the NGOs for assistance in identifying the hotspots and providing critical services to vulnerable groups of people including the elderly and children, persons with disabilities, the homeless, daily wage workers, migrant workers and urban poor families. Philanthropists and Corporates including their CSR measures supported the relief measures in a big way. While NGOs in every region worked tirelessly on the ground supporting the Government to provide food, rations and hygiene kits to the poor, they also performed the important task of creating awareness about the virus and preventing its spread, educating people on social distancing, helping to combat the stigma, providing shelter and setting up community kitchens for those in need.

However currently many states are suddenly facing a surge in novel corona virus infections, hence the right perspective would be to rigorously implement the pandemic lessons, systematic containment, and proper planning and procurement to plug the gaps in health infrastructure. This will enable us to contain the virus as fast as possible.

The virus poses a daunting challenge to livelihoods, as it does to lives. To address these unprecedented times, the Government of India has been proactive in initiating a large number of measures for business continuity. Through the Atmanirbhar Bharat initiative the Government has endeavoured to provide stimulus and support to businesses affected by announcing a huge Rs 21 trillion economic package. This is almost equal to 10% of GDP.

The 'Atma Nirbhar Bharat' mantra appears to be one such sutra which shall re-define the Indian economy. The Five pillars of Atmanirbhar Bharat focuses on Economy, Infrastructure, System, Vibrant Demography and Demand. Atmanirbhar Bharat is the vision of the Prime Minister of making India a self-reliant nation and being Vocal for Local. This self-reliant policy does not aim to be protectionist in nature and as our FM also clarified that self-reliant India does not mean cutting off from the rest of the world but translates to India being a bigger and more important part of the global economy.

The growth of India's PPE sector from zero before March, to 2 lakh pieces a day, is considered as a fine example of a self-reliant India. The PPE industry in India has become Rs 70 billion in two months. The largest fund in the country worth Rs 210 billion was setup by the IIT Alumni Council with the aim of supporting the mission towards self-reliance which is truly noteworthy.

As part of the Atmanirbhar Bharat package, numerous government decisions have taken place such as changing the definition of MSMEs, boosting scope for private participation in numerous sectors, increasing FDI in the defence sector; and the vision has found support in many sectors such as the solar manufacturers sector. Special focus has been to the MSME segment, which forms the backbone of the Indian economy. The MSME sector which contributes close to 30% of India's GDP and 45% of India's exports, is also the sector that contributes the most to employment generation after agriculture. The Rs 3 lakh crore emergency credit line without additional collateral and guarantee fee along with other initiatives, aims to enable kick-starting of this crucial sector post the lock-down.

Days after the Govt banned Chinese apps, PM Modi has invited India's tech community to participate in the 'Digital India Atmanirbhar Bharat Innovate Challenge'. The challenge is for those who have a working product or for those who feel that they have the vision and expertise to create such products. Today, when the entire nation is working towards creating an Atmanirbhar Bharat, it is a good opportunity to give direction to their efforts, momentum to their hard-work and mentorship to their talent to evolve apps which can satisfy our market as well as compete with the world,

The size of the problem, we as a country face is huge, and equally strong anti-dotes will be needed to see us through this pandemic. Looking ahead, stimulus to kick start industry in terms of manufacturing as well as consumption is a step to be considered to begin a positive consumption-manufacturing-employment cycle. Another step forward would be support infrastructure projects as these large projects provide employment and support both directly and indirectly. We are confident that the Government would consider this as the next step forward towards a more inclusive as well as stable economy.

RVG as a vibrant Institution has over the last six decades supported more than 9000 CA's when they were qualifying to become professionals. Now it's the turn of all these Alumni professionals to rebuild India in lieu of what the economy is going through. Extra efforts would have to put in by each one of us in this direction. We at RVG would be open to fresh ideas from you in this initiative.

Friends, as partial lockdown restrictions still continue, we all need to understand that the only way to protect ourselves is to keep practicing social distancing, personal hygiene, and repetitive sanitization as a life-style. RVG supports these activities to ensure a healthier environment for all of us. Please stay secure, stay safe.

Friends! I am happy to inform you that in the month of September 2019, RVG has entered into an MOU to purchase a plot of land at Kandivali West, Mumbai and build a state of the art facility on that land. When commissioned, this project would serve more than 1000 CA students. Let's pray that this should happen soon.

In this journey of 6 years at leading RVG, I have received wholehearted support from my Team, profound love from donors and well-wishers, fatherly guidance and active support from all Trustees and full co-operation from all others. The devotion and sense of duty and belongingness of the staff was remarkable. The kind of respect we have received from our students is unparalleled. We have received full co-operation from all stake holders including our bankers, numerous service providers and vendors. I thank all of them from the bottom of my heart and bow my head in humble recognition of their pursuit without which we could not have achieved desired results. I also record my heartfelt gratitude and record appreciation for the invaluable services rendered by one of my friend, philosopher and guide, our member CA Narayan Pasari for his selfless contribution for whatever work was allocated to him by me. I would fail if I do not recognise the support I always received from each of my family member including the blessings of my mother during my tenure. I owe a lot to them too!

I am sure the next Team, you would be getting elected on 30th August, 2020 would be much more vibrant and set newer standards of service and raise the bar higher. I wish the new team all the best in their future endeavour of providing quality service to the CA student fraternity.

Change is possible. Change is happening. And I am proud to say that we are all a part of it.

At last, I most earnestly request you to take active interest in the functioning of the Institution. Kindly join the virtual Special General Body Meeting and 63rd Annual General Meeting to be held on Sunday, 30th August, 2020.

Kindly take utmost care of all family and friends and stay safe.

Thanking you and stay in touch.

To ensure financial independence for important projects and / or facilities management, the following Funds have been created.

1) **MRVG Re-construction Fund**

Madanlal Rajpuria Vidyarthi Griha was established in the year 1962 and is now 58 years old. 2. Timely information was shared with all students residing at the hostels informing them about the possible impact of the pandemic and guidelines to keep them safe and secure.

4. All necessary arrangements like limiting outsider entry to the hostel premises, use of sanitizer, temperature screening of all visitors, staff members and students was carried out strictly and religiously. Disinfection of premises on regular basis is being carried out.
5. Multiple interactive webinars were conducted to help the students staying at the hostel & their home town. These sessions resulted positively in building their mental health and also up skill themselves during the lockdown period. The administration, superintendent and wardens were in constant touch with the students during the lockdown period.

6. The new admission cycle for the term April 2020 – September 2020 was impacted and the process was halted midway for the said term resulting in revenue loss to the Institution.
7. Both renewals and new admissions for the term October 2020- March 2021 is also expected to be impacted whereby resulting in revenue loss to the Institution. However, we expect renewal of admissions for the term October 2020 – March 2021 to be around 70-75%.
